Course title

Introduction to OpenEdge Database: OpenEdge 12 Course

Duration

Equivalent to 1 hour of learning

Audience

OpenEdge developers

Description

In the Introduction to OpenEdge Database course, you learn about components of relational databases and relational database concepts, such as table relationships. You also learn to use the Data Dictionary tool to create an OpenEdge database by copying an existing database. In addition, you learn about the Sports2020 database.

Version compatibility

This course is compatible with OpenEdge 12.8 and 12.2.

What you will learn

After taking this course, you should be able to:
- Describe relational database concepts.
- Create a database by copying an existing database.

Prerequisites

Before you begin this course, you should have:
- Basic knowledge of relational database management systems (RDBMS).
- Experience with managing services and programs in a Windows environment.
