

Course title

Introduction to Progress OpenEdge Administration: OpenEdge 12 Course

Duration

Equivalent to 1 hour of learning

Audience

OpenEdge administrators

Description

In this course, you learn the features and components of the Progress OpenEdge RDBMS database and the Progress Application Server for OpenEdge (PAS for OpenEdge). In addition, you learn about the tools you can use to manage and monitor databases and the application server.

The materials that you receive with this course include a Course Guide.

This course is also available online with a subscription to the [Progress Education Community](#).

Version compatibility

This course is compatible with OpenEdge 12.8 and 12.2.

What you will learn

After taking this course, you should be able to:

- Describe the OpenEdge RDBMS, its components, and administration tools.
 - Describe PAS for OpenEdge, its components, and administration tools.
 - Describe the basic components of OpenEdge security.
-

Prerequisites

Before you begin this course, you should have a working knowledge of database, server, and security concepts.
