Course title

Introduction to OpenEdge Application Architecture: OpenEdge 12 Course

Duration

Equivalent to 1 hour of learning

Audience

OpenEdge ABL application developer

Description

The *Introduction to OpenEdge Application Architecture* course introduces the concept of OpenEdge Application Architecture (OEAA), which is an updated, modern version of the OpenEdge Reference Architecture (OERA). You learn about the benefits of using OEAA as a blueprint for application design.

The materials that you receive with this course include a Course Guide.

This course is also available online with a subscription to the [Progress Education Community](#).

Version compatibility

This course is compatible with Progress OpenEdge 12.8 and 12.2.

What you will learn

After taking this course, you should be able to describe the OpenEdge Application Architecture (OEAA) and its layers.

Prerequisites

You should already be familiar with:
- OpenEdge product components
- OpenEdge process architecture
- OpenEdge concepts and terminology
